

## Learn To Swim Class Members To Receive Cards

About forty Gleichen children have been learning to swim the right way, for safety, for health and for fun.

Three weeks of Learn to Swim and Swim Improvement classes combined with Water Safety Knowledge have been the Red Cross program under the instructor, Miss Pauline Stemer.

Laurie Robertson, red Cross Provincial Examiner, tested beginners and juniors at the Gleichen pool on August 18.

The beginners who will receive cards for their services are Pauline James, Erwin Yule, Ken Wilson and Laurie Holt.

The nine successful Junior Swimmers are Sharon Brown, Marilyn Elliott, Mary Ellen Haines, Allison Bain, Bob Wilson, Mel Pettit, Shirley Pettit, Howard McLeod, Gail Brown.

A true-false test of Water Safety Knowledge had to be passed before a swimmer could qualify for the Junior Badge and Red Cross certificate.

Stroke Improvement, proper canoeing and canoe safety are the program this week with a canoe in the pool for Wednesday's class.

Flutter-boards have been given to the Gleichen classes by the Alberta Red Cross and will be used for kick improvement.

The Red Cross program is not for competitive sport but (1) to reduce the toll of deaths from drowning and (2) to promote a healthful form of exercise and physical development.

## OBITUARY

**SAMUEL THORNTON**  
Samuel Thornton resident here for the past two months died last Tuesday the age of 60 years. Born in London, Ontario he came west to Crossfield some 30 years ago and farmed for 50 years before retiring. The funeral took place Wednesday afternoon with Sr. Captain Hansen of the Salvation Army officiating. Interment was made in Everdine cemetery.

**WM. C. LEWIS**  
Wm. C. Lewis a resident at Everdine Home for the past eleven years and well known about town died last Tuesday at the age of 79 years. He was born in Ontario and had lived in this province for the past 45 years. He came to Gleichen from Black Diamond where until his retirement had worked for the Royal Oil Co. Sr. Captain Hansen officiated at the funeral service which was held Wednesday afternoon. Interment was made in Everdine cemetery.

**AMBROSE P. COBB**  
Ambrose Phillip Cobb who came to Gleichen from Calgary some four years ago died last Tuesday. He was born in England and had lived in this province for the past 40 years. The remains were forwarded to Calgary, by G. W. Evans, for funeral service and interment.

**I. S. PELLETIER**  
I. S. Pelletier died at a resident here for the past eight months died last Wednesday afternoon. He was born in - Brunswick and had lived here for the past 47 years. He discovered the coal seam at Frank, in the Cross Nest Pass, opening the Frank mine, and mining the land which is now the townsite of Morwac, west of Lethbridge. He also found other coal mines. He is survived by two daughters and three sons, all with the exception of one son were present at the funeral. The funeral took place Friday morning at 10 o'clock with Majors A. F. Parkinson and J. Sutcliffe of the Salvation Army, officiating. Interment was made in Everdine cemetery.

## Correspondence

Editor Call:  
It would be appreciated if I, as the Provincial Editor of the Canadian Legion in Alberta, could through your columns give my opinion of the conditions existing at present in respect to Basic Pensioners and War Veterans Allowance.  
At the last two Dominion conven-

tion of the Canadian Legion, held in Stinkton in 1948, and in Winnipeg 1950, resolutions were passed urging the Dominion Government to take action to remedy the deplorable situation in which small pensioners and recipients of the War Veterans Allowance find themselves today, but it is regrettable to state that the government up to this time has failed to amend the respective acts.

It is quite true that, at the session of parliament just concluded, a vote of two million dollars as an unemployment supplement was passed but as this affects a small number of those that require aid it is not solved the main problem.

The cost-of-living index is now 187 but the recipients of pensions and of War Veterans Allowance are still on the same basic rate without and increase in either pensions or allowances.

A single man who is in receipt of War Veterans Allowance receives a basic rate of \$40.3. A married man receives a basic rate of \$70.83. If he is industrially unemployed, he may apply for an additional allowance of ten dollars per month. On this allowance he is expected to pay rent, light, heat and fuel, to clothe himself and his wife and out of the remainder buy groceries sufficient to feed both and eat together. This, sir, is a financial and economical impossibility. The people are not living but merely existing, existing in a country that they served to the best of their ability when the country was in dire need of their help.

It could not be hard to imagine that the government's disregard of the plight of the small pensioner and the recipient of W.V.A. is, to some extent, the reason for the reluctance of men to enlist in the armed forces. I do not hesitate to say that the rehabilitation program of the government set out at the conclusion of the last war was proven to be the best in the entire world and every Canadian appreciates this to the fullest extent. However nothing can justify the lack of government action in respect to the class of people who are now suffering and for whom no steps have been taken to keep their living conditions on a level of what they were even in 1945.

I have written this letter to again bring to the attention of your readers the plight of which many servicemen have themselves today, with the hope that individuals and organized groups of people throughout the country will take an interest in this matter and bring it to the attention of their elected representatives.

GEORGE M. CLEAVE,  
President Provincial Command.

## WEDDING

**BROSZ-MORRISON**  
White gladioli, blue delphinium, rose larkspur and fern massed the altar of Gleichen United Church on Tuesday, August 14, for the wedding of Mary Amanda Gorman Morrison, daughter of Rev. and Mrs. W. Morrison and Victor Raymond Brosz, son of Mr. and Mrs. J. Brosz of Medicine Hat.

The bride's mother gave her in marriage at the double ring ceremony which was read by her father. The bride and groom wore matching blue and white suits for the occasion. Navy blue and white accessories and corsage of orchid and stephanotis completed the bride's attire. The groom wore a single strand of pearls, a sign of the groom.

The bridesmaid, Miss Pauline Stemer, wore a pale blue dress, a maker suit and hat with navy blue accessories, and a corsage of pink roses and white gladioli. The groom's best man, Mr. Elroy Brosz, brother of the groom was his attendant. Guests were ushered to their places by Mr. Edward James of Gleichen and Mr. Edward Knodel of Medicine Hat. Mrs. C. Klupp played the wedding music. While the register was being signed, Mrs. N. Yates sang "Wedding Prayer".

Out of town guests for the occasion included Mr. and Mrs. J. Brosz of Medicine Hat, and their daughter Jeanette; Mr. and Mrs. J. J. Quinlan of Pincher Creek; Mr. and Mrs. E. Brosz of Bow Island; Mr. C. Bailey, Mr. and Mrs. R. Bailey, Mrs. McIlroy and Mrs. A. J. O'Connell of Calgary; Mr. Edward Knodel of Medicine Hat. Luncheon was served to members of the wedding party and numerous guests at the home of Rev. and Mrs. W. Morrison. Bouquets of flowers decorated the long head table which

was centered with tall white towers and the three-tiered wedding cake. Mr. W. Stemer, minister, presided at the toast to the bride, which was followed by toasts to the bridesmaid and to the mothers of the bride and groom.

Mr. and Mrs. Brosz left in the early afternoon to motor to the mountains. The couple taught school in Courts last year and will be returning to their new home there in September.

Mr. and Mrs. Ted Krause and daughter Linda left for Edmonton Monday and expect to return today with a caterpillar tractor which Mr. Krause recently purchased.

Let everyone keep hustling to improve the appearance of their streets and lots. Keep all kinds of rubbish off the streets and sidewalks, and see that your houses, fences, etc., are neatly painted. There is nothing that helps the looks of a town and induces newcomers to settle in it so much as the neatly painted houses and fences, neat and tidy streets and sidewalks and fruit and shade trees on your lots. Let us see what you will do for the benefit of our progressive town.

The Call will be glad at all times to get news items from our readers. Kindly let us have any items of interest you may know.

Man is mentioned in the Bible 1482 times; women only 126. Which is not so strange in view of the fact that men wrote it.

The husband and lover were standing beside the open grave of the wife after all the other mourners had left. The lover was sobbing and shaking. The husband came up to him, patted him on the back and said, "There, there! Don't grieve so. I will marry again."

## FROM THE FILES OF THE CALL TWENTY YEARS AGO

Frost last week is reported to have done considerable damage to the grain crops in Huesar district.

Mrs. J. A. Menard returned last week from a motor trip to Crookston, Minn., where she spent a couple of weeks visiting relatives. Mrs. John Prentice and children of St. Paul, Minn., who have been visiting relatives throughout Alberta, left by motor for Seattle, Wash., to visit her sister Mrs. J. Johnson. She was accompanied by her sister Mrs. S. J. Lewis and children and her mother Mrs. Kruger of Calgary.

Jas. Greer who has been spending his holidays in the State of Washington returned home Monday.

Rev. and Mrs. F. Gibney and family of Sarcee reserve were in town Friday.

Joeahel played baseball at Meadowsbrook Sunday afternoon. The score was 7-5 in favor of Rosebud.

Lieut.-Col. and Mrs. Lewis and their daughter left for a vacation in Vancouver.

Sitting by the fire was more popular last week than swimming.

Ted Krause is adding an addition to his home and when finished he will have a substantial home that will improve the looks of the west end of the town.

Last week Bob Haskayne took a motor trip to Edmonton and points east. One day he saw some of the finest crops he has seen this year, but the town of Haskayne and a lot of it had been chopped to pieces by hail.

Today is the last Wednesday half holiday for the business places of Gleichen this year. No more will there be sudden last minute rushes by buyers to stock up with grub for the evening meal and breakfast Thursday morning. No more this year will the townspeople spend Wednesday afternoon sunbathing themselves and watching the bathing beauties march past at the lake and at the same time eat Fred Jones hot dogs.

Geo. and O. Desjardins and P. Vign have returned from their trip to the Peace River country and were delighted with all they saw while up there. They are Chris, Harold and John now run a large cattle ranch near the border of British Columbia and Alberta.

Mr. and Mrs. Halstead and family have returned from a trip to Fort Frances, Ont.  
Miss Anna Desjardins left on Saturday for Calgary where she will train for a nurse.

## Chamber of Com. Met Last Thursday

Last Thursday evening the Gleichen Chamber of Commerce held another banquet in the Legion hall at which some fifty members attended.

The banquet was served by the Women's Auxiliary to the Canadian Legion and was thoroughly enjoyed by the diners.

R. K. Hunter, president of the organization in a short speech asked the members to devote some thought to a new president at the next election of officers.

Mr. Hunter then introduced the two speakers of the evening. The first was Mr. E. H. Parson administrator of civil defence for the city of Calgary. Mr. Parson spoke for considerable time on the possibilities of an atom bomb explosion over cities if war broke out. The large number of people who would be killed and the many people who would be left homeless.

R. H. Hooper, chief welfare officer for Calgary was the next speaker. He also spoke at length.

As the time was getting late when these speakers were through speaking and answering the questions asked of them the meeting adjourned. We cut out any of the local speakers addressing the members.

Those little facts to business—the Classified Ads—are neglected by many people. You may have something to sell, so why not tell the townspeople about it? Otherwise you are very likely to retain possession of the article indefinitely. Perhaps it is just the article that some one else is looking for, or perhaps the suggestion that someone is looking for immediately make up his mind that it is something that he needs and has a use. There is hardly a house sold in Gleichen but what has an article, or may be a half dozen articles that could be disposed of to advantage and yet these articles are retained in many cases unused and in the way when a small classified advertisement might possibly bring to the door a buyer. The classified ad is a business getter and builder and should be used by everyone. They are inexpensive, 15 words or under 50 cents first insertion and 25 cents each subsequent insertion. 3 weeks \$1. Over 15 words one cent per word for each insertion.

## Health Services

**THE VALUE OF** extended health services and of preventing the occurrence of disease whenever possible is recognized everywhere today. As a result of the increased interest in preventive medicine many communicable diseases have been almost stamped out, and the effects of others have been modified by the use of modern drugs and serums. Widespread immunization and the many other services which go with the practice of preventive medicine have placed an added burden on public expenditures. In Canada both the Provincial and Federal governments administer health matters. Hospitalization plans, and public health services are managed by the provincial governments and vary in the different provinces, but throughout Canada there is continuous expansion in this work.

### Fuller Use Of Grants

Many activities of the provincial health departments are made possible by grants of federal funds for these purposes. Recently Hon. Paul Martin, Minister of National Health and Welfare announced that the national health program had been expanded to make federal funds available for a wider variety of uses by the provincial health departments, and to permit fuller use of the grants. Among the changes announced were the provision of funds for the building of hospital laboratories, grants for the building of nurses' residences and increased aid for out-patients departments and diagnostic service in hospitals.

### Create Need For Expansion

The extension of federal financial aid, Mr. Martin said, would help the nation's hospitals to develop good prevention program. "The hospital has wider opportunities than ever before," he pointed out, "in education, research, care of the sick and in public health." Wider opportunities bring heavier responsibilities for service, the minister added, and these responsibilities have been felt in all parts of the country. There has been difficulty everywhere in providing hospital space, nursing service and the many other facilities required by a growing population and rapidly expanding health services. There is no doubt, however, but that all this signifies important social progress here, and health programs of the federal and provincial governments are resulting in widespread benefits to the Canadian people.

## Big Contracts For The Trans-Canada Highway

**WINNIPEG.**—Work now under way on the trans-Canada highway totals \$44,000,000 in construction contracts, J. W. Wardle of Ottawa reported.

Mr. Wardle, federal director of engineering and water resources in Winnipeg studying river road surveys and investigations.

"We need a highway across the Dominion very badly," he said.

Mr. Wardle said he expects Quebec and Nova Scotia would join in the other provinces in the agreement for construction of the highway.

### PRINCESS ELIZABETH INSPECTS SCOUTS OF COMMONWEALTH

**LONDON.**—Princess Elizabeth inspected 180 Commonwealth scouts in the garden of Clarence House, her London residence. Contingents were on parade from Canada, South Africa, Ceylon, Southern Rhodesia, British Guiana, Hong Kong, Jamaica, Malaya and Sierra Leone. The Princess was accompanied by Chief Scout Lord Rowland.

## Patterns

News! Shell Dolly!

Now fashion! Set your table with shell-shaped dolls! Eat in different color. Also you can use them as a chair-seat.

Pattern T224, crochet directions for large and small doll.

To obtain this pattern send twenty-five cents in coins (change cannot be accepted) to:

**Household Arts Department, Winnipeg Newspaper Union, 60 Front Street W., Toronto.**

Be sure to write plainly your Name, Address and Pattern Number.

Mediocre! Have you seen our 1924 Alice Brooke Needlework catalogue? Send twenty-five cents for your copy today! Illustrations of patterns for crochet, knitting, embroidery, and other fascinating handwork. A Free Pattern is printed in the book.

## New Act Will Give Indians More Equality

**OTTAWA.**—New legislation to help Canada's 136,000 Indians on the road to self-government goes into force in September, Citizenship Minister Harris announced.

The new Indian act, first major overhaul of Indian legislation in 71 years, was passed at the last session of parliament.

Charges of the state, the Indians now will have greater powers over their own property and their own affairs. Mr. Harris said:

"The aim of the new act is to bring the Indians, by progressive steps, into a position of social, political and economic equality with other Canadians," the minister added.

Some of the changes:

1. Indian bands now can be authorized to have complete control over the spending of band and land revenue money.
2. The right to vote in band council elections is extended to Indian women.
3. Loans, previously restricted to the purchase of farming and stock equipment and kindred needs, now can be granted for the purchase of motor cars, fencing materials, gas and oil, repairs and for the payment of wages.
4. Special schools will be established on some camps for the education of Indian children living off reserves. In other cases, arrangements will be made to make Indian children trained in regular municipal schools.

### Needy Served Free Food At Woman's Market

**VICTORIA, B.C.**—Mrs. Barbara Green has set up a stall in city market where she distributes donated foodstuffs to needy persons without charge. Her firm is co-operative, has proved successful, and she would like to see it incorporated in other cities.

Cards are distributed to eligible persons by the city Welfare Department and nearly all have been used to get supplies from Mrs. Green's stall.

On one day Boy Scout's delivered 15 hamsters filled with fruit, meat, home baking, butter, eggs and other goods. About 600 pounds of tomatoes, 300 pounds of beans, crates of lettuce, watermelons, carrots, apples, cherries, potatoes and other produce were received.

Question Whether Ben Being Helpful

**DUNCAN, B.C.**—Mrs. F. W. Kingston doesn't have to collect the eggs in her henhouse.

One of her hens does it for her.

Mrs. Kingston says the hen, instead of getting down to the job, spends her time rolling eggs from one nest into her own.

Today that would be fine, Mrs. Kingston says, but the hen eats as well.

Central Press Canadian.

**THE GEESSE MUST GO THROUGH.**—A genuine German goose-steep, though not the military version brought cars, trucks and cyclists to a standstill on West Berlin's Kurfürstendamm. The traffic cop is shown giving the geese the right of way as they single-file across the street.

**PEGGY**

FORBIE BE AN ANGEL WHEN HE COMES!

I'VE BEEN WANTING TO MEET THE CHUCK WHITEHEAD-ROCKHAWK BEEN BURLINGZAR THE ICE BOY! EARS LIKE A HUNGRY LION!

ESTHER HUNT'S TALK TO RUN LIKE A TIGER TOP SERGEANT!

HIT COOKIES! OH, YES!

PEGGY

Helen—Wonder what men talk about when they're off by themselves.

Helen—Probably the same thing we do.

Helen—Oh—aren't they awful!

Passenger—"Which end of the car do I get off?"

Conductor—"Either one. It stop at both ends."

## Selected Recipes :

**Vanilla Ice Cream**

Two rennet tablets, 1 tsp. cold water, 2 cups light cream, 2 cups milk, 3 cup sugar, 4 tsp. vanilla.

Disolve rennet tablets by crushing in cold water. Mix light cream, milk, sugar, and vanilla. Warm slowly, stirring constantly. Turn a drop in milk of water frequently.

When consistency is firm (110 degrees F.), not hot, remove at once to refrigerator. Add dissolved rennet tablets and stir quickly for a few seconds only. Pour at once, while still liquid, into freezing unit.

**Vanilla Fig Delight**

One cup heavy sugar, 1 cup water, and 1 cup chopped figs. Simmer 5 minutes. Add 1/2 cup Maple or Vanilla Ice Cream.

## Claims Wonder Drug Will Cure Smut In Grain

**EDMONTON.**—A University of Alberta scientist has discovered that antibiotics — the wonder drug which cures a host of human diseases — also cure smut of crops.

The scientist, Dr. A. W. Henry, told farmers attending the annual university plant sciences department visitors' day that actinone will cure smut in grains.

Actinone is produced from the same organisms which produce streptomycin, an antibiotic used in curing many human diseases.

Dr. Henry said he soaked amaranth seeds in a solution of 10 parts of actinone to 1,000,000 parts of water.

Some of the treated seeds showed smut.

Dr. Henry used farmer's seed drill samples in which a disease known as black stem of wheat is prevalent agriculturally. He said 90 per cent. of several hundred samples collected were diseased with smut.

"The project still is in an experimental stage," Dr. Henry said, "but it shows considerable control in smut—one of the most difficult of plant diseases to control by seed treatment."

He said antibiotics would be much safer to use than mercury compounds which many farmers now use.

## Alberta's Crop Of Alfalfa Hit By Black Stem

**LETHBRIDGE, Alta.**—Plant pathologists said that a disease known as black stem of alfalfa is more serious than usual this year because of wet weather.

J. E. Jawn of the Dominion Laboratory at Lethbridge said the disease is widespread in Lethbridge and Brooks areas of Alberta this year.

Dr. G. B. Sanford, plant pathologist at Edmonton, said the disease also is severe in some parts of northern and central Alberta.

A black stem of alfalfa is caused by a fungus which develops best in cool, wet periods. Alberta has 260,000 acres of alfalfa this year. Black stem can cut production value by half.

A study of black stem is being made at the plant pathology laboratory in Saskatoon. So far no control method is known. Dr. Sanford said a resistant variety of alfalfa will have to be developed.

## Provided Building For Church Services

**RAPID CITY, Minn.**—Lightning and fire have killed to keep residents of the Cadutius district, eight miles north of here, from attending church.

The church building was destroyed by fire when struck by lightning. Members withdrew and the church stable, wired it for electricity and carried on worship there.

**Work Longer To Overcome Log Shortage**

**VANCOUVER.**—A step-up in logging operations is expected in B.C. following the forest closures to catch up on the shortage of logs which have developed since the fire hazard virtually closed down the vast industry.

It appears there will be no great opposition to longer working hours from International Woodworkers (CIO-CIO). B.C.'s largest union which has most coast operators under contract, though once the cut was caught up the union "would oppose overtime work."

At the present time most mills are drawing from stock normally held in reserve for winter production.

## Have Polite Way To Avoid Trouble

**CHARDON, Ohio.**—Officials in nearby Middlefield want to make sure from the village's new parking meters, but they don't want to peeve anyone with a fine for over-time parking.

When police see a car beside a meter showing the time limit passed they'll deposit a nickel and have a tag signed by Chief John Phelps in place of the meter to reimburse the police department.

## Treasures Worth Fabulous Sum Lent To Toronto Art Gallery

TORONTO. — The largest emerald in the world — big as a clenched fist — is at the Toronto Art Gallery this month. It was hallowed out in the 17th century to make a perfume jar for a queen's dressing table. In an upstairs room stands the crown of the King of Rome — son of the Emperor Napoleon. Crusted with gold and inlaid with mother-of-pearl, it was presented to Napoleon on the birth of his son by the citizens of Paris.

The two items are part of a travelling collection of European art treasures loaned to the gallery by the Kunsthistorisches Museum of Vienna — the Austrian state museum. Estimated at \$80,000,000, the collection consists of paintings, armor, tapestries and sculpture and work in gold, silver, ivory, bronze and precious stones. There are 131 paintings — by Flemish, Italian and Spanish artists of the 16th and 17th centuries.

Bidney Key, curator of the gallery, says the \$80,000,000 is merely an insurance estimate. "Every item in the collection is unique and irreplaceable," he says. "One painting, 'The Artist in His Studio,' by the Dutch master, Jan Vermeer, is valued at \$20,000. But it can no more be replaced than can Westminster Abbey."

The collection was assembled over a period of four centuries by members of the Hapsburg family who at one time ruled Europe from the Mediterranean to the Baltic, and whose domain extended to the East Indies and to America.

Parts of the portrait collection constitute a cross-section of the aristocracy of Europe for the last 400 years.

From the walls of the gallery, princes and kings, knights in gold-embossed armor, royal stripplings in satin and brocade and here and there a gentleman unknown, stare haughtily at the visitor.

In one corner a life-size bust of King Philip II of Spain — cast in silver and painted in naturalistic colors — frowns moodily across the centuries. King Philip launched the Spanish Armada against England.

The Italian painter Titian — counted by Michelangelo one of the two greatest painters of the Renaissance — was a shrewd judge of character. His portrait of Pope Sixtus IV — the pope who sponsored the Jesuit order — at the time of the Protestant reformation — shows an aged man amply suited to guide the church through those troubled times.

To look at the paintings in the gallery is to recall famous names — Rubens, Velasquez, Van Dyck, Titian, and Rembrandt Van Rijn.

Armed guards patrol the corridors of the gallery and policemen wait outside. They keep a special eye on the door of the show.

It is a 35-pound satchel made of beaten and hammered gold and encrusted in blue and black. It was made for King Francis I of France.

## Fashions That Slim Look

4941 5140

of Anne Adams

This is the way to look! Slimmer, smoother, matter—all the things you want in a dress—wherever you go. Your favorite caress is beautifully supplemented with a deep neckline, tucked shoulder and caped sleeves.

Pattern 4941 comes in sizes 34, 36, 38, 40, 42, 44, 46, 48, 50. Blue 28 takes 3 1/2 yards 35-inch fabric. This pattern, easy to use, simple to sew, is tested for fit. Has complete illustrated instructions.

Send thirty-five cents (35c) in coins (stamps cannot be accepted) for this pattern. Write plainly name, address and size. Name, address and size. Name, address and size. Name, address and size.

CANOEING ON STREET—While drought conditions have prevailed in British Columbia and parts of Manitoba, Edmonton residents have experienced the wettest summer in years. Torrential downpours have made lanes of many streets in newly-developed sections of Alberta's capital. Here is a family group canoeing on a new residential street in Edmonton.

Western Briefs

**New Grain Annexes**  
LOVE THICK. The wheat pool plans to build 100 grain annexes this year at a cost of \$10,000 for each annex of 25,000-bushel capacity, pool director J. H. Watson said recently.

**Amiant Rapids**  
WINNIPEG.—The remains of a gigantic marine reptile that ate plants and small fish were discovered recently near Morden, Man., 60 miles southwest of here.

**Grants For Programs**  
EDMONTON.—Premier E. C. Manning announced the Provincial Government would widen its grants to approved School Board capital programs.

**Completes Power Line**  
WEEKS, Sask.—A Saskatchewan power line project started at Tisdale last spring has been completed with the erection of 70 miles of power poles. It is expected the line will be in operation by October.

**Calgary's First And Only Movie Too Real For Patrons**

CALGARY.—The handsome hero leaped over and kissed the heroine as she casually produced her trusty revolver and played a tune to the wire-supported moon over Lake Louise.

Then, as the sun sank slowly, they rode away together to the Calgary exhibition grounds.

The scene was Calgary's first movie set. The date: 1937. It was Calgary's lone entry into the motion picture business—a "root-in-tootin' epic called 'His Destiny'."

All that remains of it now is a brilliantly-colored booklet describing the "stupendous story of the foothills of the Rockies."

Neal Hart, the cowboy gladiator man of the '20s, was the star. He was also the director and in the movie was called upon to stop a wild horse stampede.

In the booklet, Hart is pictured wearing a wide-brimmed hat, pearl buttoned shirt and fancy riding pants. He is also shown in a dark suit with a black tie wearing the worried look of a director.

The rest of the cast was hometown talent. "Joe Big Plume, chief of the Carce tribe, played an Indian chief. Inspector James Scudling of the R.C.M.P. was a mounted police inspector. And somehow, Viscount

**Calgary Zoo Has Some Clever Deer**  
CALGARY.—Even the deer at Calgary have baby-sitters.

Curator Tom Smith says two mother deer have worked out the system.

The mama deer looks after both offspring in the morning. Mama No. 2 takes over in the afternoon.

When neither wants to worry about the babies, they push the small fry through a fence to be cared by a third mother.

Then the mother sicks trot off cheerfully together.

THE TELERS  
BE CAREFUL WHEN YOU HEAR THE NEW JOE JAMBER. THE KICKS.

**FIRE AT OIL WELL**  
WIZARD LAKE, Alta.—Fire at an oil well about 40 miles southwest of Edmonton damaged a costly drilling rig and halted for about five hours before being controlled. The well was being drilled by Stewart Drilling company, a contractor for Texaco Exploration company. It is due south of Texaco's Wizard lake discovery well.

**TEACHERS NEEDED**  
EDMONTON, Alta.—The Alberta department of education provides \$150,000 annually in special bursaries to attract students into the teaching field.

## World's Wheat Carryover Is Slightly Higher

OTTAWA.—Wheat supplies in the four main wheat-producing countries left for export and carryover at July 1 totalled 1,000,000 bushels, slightly above last year's total of 888,000,000, the Bureau of statistics reported in its monthly review of the world situation.

The report showed that the United States held 885,000,000 bushels compared with 847,000,000 last year; Canada 210,000,000 compared with 129,000,000; Australia 17,000,000 compared with 16,000,000; and Argentina 18,000,000 against 40,000,000.

Based on conditions at June 1 last, the eighth consecutive billion-bushel wheat crop was forecast for the United States. Production of all wheat was placed at 1,070,000,000 bushels, consisting of 707,000,000 bushels of winter wheat and 363,000,000 bushels of spring wheat.

"In Canada," the report said, "cutting of the winter wheat crop will be advanced, with an estimated 911,300 acres in the Argentine harvest, possibly. While no official estimate of yields has been published, it is evident that earlier estimates will result from relatively extensive damage by the Russian fly."

Current indications are for some reduction in the Argentine wheat crop, possibly. In the Argentine wheat crop, Australia growing conditions are generally satisfactory although some reduction in acreage appears to have taken place. In Argentina, on the other hand, moisture reserves have been seriously depleted, especially in Cordoba and Santa Fe, and as a result acreage reductions in these areas have been estimated by the trade at around 40 per cent.

**ODDITIES IN THE NEWS**

Plunk! The door of an airplane landed in a residential street in Jacksonville, Fla. "Plunk! A seven-man team of the Jacksonville Police Department hauled a house a short distance away. Lt. Cmdr. R. C. White said the door apparently fell from a navy plane, leaving the raft also to drop.

A house seemed a fire alarm and probably saved the funeral home of William B. Fajst in Highland Park, N.J., from flames, fire officials said. The empty house caught fire and its burning, awakening neighbors, who summoned firemen.

Two hens in a poultry yard in Matley, England, were both stung by bees. Victims had an hour or the hens laid three eggs and the other laid one.

John T. Hill was blown into the hospital at Fort Worth, Tex., by using an "ill wind." A carpenter, he was using a power saw when a brick wall of the power cord around him. Startled, he dropped the saw, which nearly severed his foot.

The name "hobo" originated in the western United States shortly after the Civil war.

**BYLAW ADOPTED**  
MEDICINE HAT, Alta.—A curfew bylaw was adopted by the Medicine Hat city council to get unaccompanied juveniles off the streets by 10 p.m.
